***Tomo Campbell: There* at Cob Gallery, London: April 11 – May 5, 2018**

Pooling inspiration from a variety of time periods (medieval, Victorian) and pieces (antique vases, tapestries), artist Tomo Campbell's captivating paintings are nothing short of eclectic. Cob Gallery's exhibition of Campbell's work promises a disorienting yet pleasing look at the painter's practice and style. In the gallery's back room, two almost-identical paintings will hang opposite each other, their nearly-but-not-quite mirror image surfaces set to intrigue and puzzle the viewer.
